The background features a dynamic composition of overlapping geometric shapes in shades of purple and orange. Large, rounded rectangles and smaller, angular shapes create a sense of depth and movement. Wavy, thin lines in matching colors are scattered across the surface, adding to the organic feel. The overall effect is modern and energetic.

Dear Dr.Roy,

Thank you for choosing Malaysian Applied Biology Journal for special issue publication.

With regards to the confirmation of publication, kindly send an official letter to the Editor stating the intent to have a special issue publication made and we will respond accordingly with an agreement letter to have this special issue with MAB.

Please make a note that, we will accept only maximum two manuscripts from each author for this special issue.

Best regards,

Editorial Assistant

Respected Prof. Dr. Wickneswari Ratnam, FASc

Thank you for your prompt response. I understand your objection about our APC offer of USD 170 per manuscript. With several considerations, we approve APC of USD 200 per manuscript. I hope you will soon be able to send the draft agreement for us to learn more.

Looking forward to a fruitful collaboration.

Warm,
Dr. Roy Hendroko Setyobudi.

E3S Proceeding

E3S Web of Conferences offers a wide range of services from the organization of the submission of conference proceedings to the worldwide dissemination of the conference papers. It provides an efficient archiving solution, ensuring maximum exposure and wide indexing of scientific conference proceedings.

Only top 20 high quality selected papers will be considered to be sent to **JER (Journal of Engineering Research)** Kuwait University Journal. (ISSN: 2307-1877, and Online ISSN: 2307-1885) indexed by **Scopus** and **Scimago (Q2)**. Authors must follow the further review process and do some revisions required by JER.

Journal of Engineering Research

Journal of Engineering Research (JER), from Kuwait University is an international journal, peer reviewed journal which publishes full length original research papers, reviews, case studies related to all areas of Engineering such as: Civil, Mechanical, Industrial, Electrical, Computer, Chemical, Petroleum, Aerospace, Architectural, etc.

JER is published quarterly with the Print ISSN: 2307-1877 and Online ISSN: 2307-1885 and is planned to serve as an academic medium and an important reference on the advancement and dissemination of research results that support high level learning, teaching and research.

We encourage original submissions related to, but not limited to, the following topics.

All papers will be evaluated by reviewing committee and will be selected according to the standard.

After a careful refereeing process, selected papers will be submitted and published on IOP Conference Series: Earth and Environmental Science, as International Proceeding indexed by Scopus and Scimago.

Only top high quality selected papers will be considered to be sent to **Journal of Engineering Research (JER)**, an international journal indexed by **Scopus (Q4)** and **Scimago**.
